Description

Charming cottage set back from road with fantastic views of Lough Foyle. Whin Cottage is close to the seaside villages of Greencastle and Moville. It has been recently renovated to a high standard and includes central heating and an open fire.

The cottage provides the ideal location for getting away from it all and exploring the beautiful Inishowen Peninsula. You can use the new car ferry services at Greencastle and Bunrana to travel either eastwards along the north coast of Ireland or westwards to the rugged beauty of west Donegal. A 30 min. drive takes you to the Historic City of Derry with its unique, intact walls and meandering riverfront walks.
